

Gangumalla Rajan Reddy

LinkedIn: [linkedin.com/in/rajanreddy08](https://www.linkedin.com/in/rajanreddy08)
GitHub: github.com/RajanReddyGangumalla

Email: rajanreddyg53@gmail.com
Mobile: +91-6302546986

Skills

Languages: Python, Java, SQL, Kotlin, XML
Tools: MySQL, Firebase
Frameworks: Django, Android Studio, Fast API, Flask, HTML and CSS
Soft Skills: Adaptable, Growth Oriented, Quick Learner

Projects

Customer Churn Prediction | [GitHub](#) | [Live](#) Nov' 25 – Dec' 25

- Crafted a machine learning model using Logistic Regression to predict customer churn based on demographic, financial, and behavioral features.
 - Deployed a production-ready web application using Streamlit to deliver real-time churn probability on predictions.
 - Integrated interactive data visualizations (gauge charts and analytics dashboard) using Plotly to represent churn risk effectively.
 - Analyzed 10,000+ banking customer records to extract insights and improve predictive performance.
- Tech:** Python, Scikit-learn, Pandas, NumPy, Streamlit, Plotly, Joblib

Email Spam Classifier | [GitHub](#) | [Live](#) Mar' 25 – Apr' 25

- Developed a spam email classification system using three machine learning models: Naïve Bayes, Logistic Regression, and Support Vector Machine (SVM).
 - Implemented text preprocessing and feature extraction techniques to convert email content into suitable inputs for classifiers.
 - Built an interactive web application using Streamlit to enable real-time spam classification with user-friendly interface.
 - Designed the app to accept user input or connect to email services to fetch and classify unread emails as spam or ham.
- Tech:** Python, Scikit-learn, Pandas, NumPy, TF-IDF Vectorizer, Matplotlib, Streamlit

Training

Android Developer Pro - LPU Skill Development | [Certification](#) Jun' 25 – Aug' 25

- Completed Android Developer Pro: Hands-On Projects & Play Store Launch - No Experience Needed! training covering App development and deployment with practical, industry-oriented projects.
- Gained experience in building Android applications, managing databases, and deploying apps in playstore.
- Strengthened problem-solving and mobile development skills through practical, project-based learning.

Certificates

- ChatGPT-4 Prompt Engineering | [Certificate](#) | [Springboard](#) Aug' 25
- The Bits and Bytes of Computer Networking | [Certificate](#) | [Coursera](#) Sep' 24
- Machine Learning | [Certificate](#) | [Simplilearn](#) Oct' 23

Extra-Curricular Activities

- Participated in the Code-off-Duty Hackathon and received a Certificate of Participation for demonstrating innovation and technical problem solving.

Education

- **Lovely Professional University**
Bachelor of Technology - Computer Science Engineering (AI&ML) **CGPA:** 7.6 Phagwara, Punjab, India
Aug' 23 - Present
- **Narayana junior college**
Intermediate - **CGPA:** 9.0 Hyderabad, India
Jun' 22 - May' 23
- **Geetha High School**
Matriculation - **CGPA:** 10.0 Hyderabad, India
Jun' 20 - May' 21
